Summary

I'm a highly motivated and creative full-stack developer. I specialize in building visually stunning and highly functional web applications, mobile apps, and websites using the latest technologies.

Skills:

Frontend: React, Next.js, Angular, Vue.js

Backend: Node.js, Express, Python

Database: MongoDB, PostgreSQL, MySQL

CSS Frameworks: Chakra UI, Bootstrap, Tailwind CSS

My mission is to create seamless digital experiences by combining my technical expertise and passion for design. I'm always eager to learn and grow, staying up-to-date with the latest industry trends and best practices.

Whether you need a custom web application, mobile app, e-commerce platform, I'm here to help! Feel free to reach out to discuss your project ideas and how I can contribute to your success.

Let's create something amazing together! #

Experience

Practitioner

Solusoft

Sep 2022 - Jul 2023 (11 months)

Education

Universidad Interamericana de Panamá

Licentiate degree, Systems Engineering

Oct 2018 - Dec 2024

During my time at the Universidad Interamericana de Panamá, I gained a comprehensive education in Systems Engineering. My studies covered a wide range of topics, including software development, computer networks, database systems, project management, and system analysis.
